DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kim Kanzaki (Reg. No. 37,652) on 05/25/06.

The application has been amended as follow:

Claim 1 line 8, after "criterion is met" insertion --; and further comprising performing timing analysis prior to step (a) to obtain timing information and selecting a set of connections that need to be improved, wherein said incremental placement operates only on said set of connections, said set of connections selected based on deviation of said timing information from a predetermined constraint--.

Claim 2 has been canceled.

Claim 3 line 1, change "claim 2" to --claim 1--.

Claim 4 line 1, change "claim 2" to --claim 1--.

Claim 5 has been canceled.

Claim 6 has been canceled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

1. Claims 1, 3, 4, and 7-15 are allowed because the prior art does not teach or suggest a method for placing and routing a design on an integrated circuit, said design having a plurality of objects, said method comprising: (a) performing incremental placement on a routed design; (b) generating a new routed design using incremental routing based on results of said incremental placement; (c) storing said new routed design if its quality is superior to that of said routed design; and repeating said (a), (b), and (c) steps until a predetermined criterion is met; and further comprising performing timing analysis prior to step (a) to obtain timing information and selecting a set of connections that need to be improved, wherein said incremental placement operates only on said set of connections, said set of connections selected based on deviation of said timing information from a predetermined constraint.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Binh C. Tat whose telephone number is 571 272-1908. The examiner can normally be reached on 7:30 - 4:00 (M-F).
